**ntb group announces completion of phase 1 website for RICE International Relief Corp.**

ntb group, LLC of Vero Beach, Florida is proud to announce the completion of Phase 1 of the RICE International Relief Corp website at <http://www.ricereliefcorp.org>.

RICE is a non-profit faith based organization with the goal of ending poverty in less developed countries by creating sustainable agricultural and related enterprises. Founded by former oil company executive, Read Taylor, RICE has active projects in Thailand (tsunami relief), Burma (refugees), Russia (orphan children), Sierra Leone (coffee agri-business) and other areas in Europe, Southeast Asia, and Latin America.

The RICE website features the RICE mission and houses streaming FLASH video from the Thailand tsunami in December of 2004. ntb group has provided all website development services as well as hosting services for RICE.

ntb group is under contract with RICE to provide additional website development and hosting services as well as to develop and support the growing information technology infrastructure of this growing, global organization. The RICE technology platform includes applications to connect RICE mission groups around the world as well as a global RICE information exchange. In 2006, RICE will be unveiling "The Grace Exchange" a technology engine, developed by ntb group and RICE, that will match and track needs and donors.

Paul Seldes, ntb partner, says, "We particularly enjoy working with such a dynamic organization that affects world change and helps so many people that are in so much need. RICE demonstrates that thru technology we can make the world a better place."

ntb group, LLC offers premium technology services including website design, e-commerce, web hosting, secure computing, wireless networking, network design, software design, and more. For more information contact Paula Lerner at 772-538-1921, email Paula at [paula@ntb-group.com](mailto:paula@ntb-group.com) or visit ntb on the web at <http://www.ntb-group.com>. For more information about RICE, please visit <http://www.ricereliefcorp.org>.
