Where was ntb group during Hurricane Frances?

ntb group, LLC of Vero Beach, Florida is a personal and business data recovery and mitigation company. So during Hurricane Frances the principals of ntb were doing what they are trained to do...help people. Paula Lerner, Tom Dell, and Paul Seldes were working as Red Cross Disaster Volunteers. The ntb group team opened and ran the American Red Cross emergency shelter at the Gifford Middle School.

“It was crowded, the power went out and it was certainly scary, but the important thing was everyone was safe”, said Lerner, “The school administrative staff and cafeteria staff was phenomenal. The Sheriff’s department team led by Officer Andrew Cosenza went above and beyond the call of duty. And we could not have had a better team of shelter volunteers to help us.”

After three days in the shelter, the ntb team went on to assist their clients recover while ntb board member Seldes worked with coordinating and assisting with local Red Cross relief efforts.

ntb continues to help businesses recover their data and systems. ntb works with clients to prepare for and mitigate disaster related risks. For more information contact Paula Lerner at 772-538-1921 or email Paula at paula@ntb-group.com. Until December 1st, 2004, ntb group is offering local businesses 30-50 percent discounts from ntb’s standard rates to assist in recovery.
